More about your ID card

You don't need a separate card for all products. For example, your card may include your pharmacy (Rx) info.

If you've lost your ID card and need to show it for care, bring it up on a device such as your cellphone. You can also show your doctor a printed copy.

What if the information on your card is wrong?

If there is incorrect member name or plan information on your member ID card, and you signed up for insurance through your workplace, contact your employer's HR/benefits department and they can give us the change.

If you didn't sign up through work, just call the member services number on your card.
