The choice of provider is yours. This site is for informational purposes only. It is not a substitute for medical, behavioral health, dental, or health care advice. This directory does not recommend a particular provider or type of behavioral health, medical, dental or health care. If you believe you are experiencing a medical emergency, please call 911.

Before scheduling an appointment or receiving services, please check with the provider and your health plan to confirm that the provider is participating, that the service is covered, and the costs that you may be charged for the service. The directory is updated weekly. If you think any information in the directory is inaccurate, you can email provider_directory_invalid_issues@uhc.com. This email is for individuals to report potential inaccuracies for demographic (address, phone, etc.) information in the online or paper directories. Reporting issues via this email will result in an outreach to the provider's office to verify all directory demographic data. Individuals can also report or submit a complaint, related to potential inaccuracies via phone. UHC Members should call the number on the back of their ID card, non-UHC members call 1-888-638-6613 and providers call 1-877-842-3210. For IL provider demographic inaccuracies, you may also contact the IL Office of Consumer Health Insurance at 1-877-527-9431. Behavioral health provider information issues, for states other than CA by calling 1-800-557-5745, or emailing provider_feedback@optum.com. California residents may report possible inaccurate, incomplete or misleading information listed in the Behavioral health provider directory by calling 1-800-999-9585, or emailing provider_feedback@optum.com.

UnitedHealth Premium® is proprietary to UnitedHealthcare. UnitedHealth Premium evaluates physicians based on safe, timely, effective and efficient quality care criteria to help members make more informed choices for their health care. **It's intended only as a guide and should not be the sole factor considered when selecting a physician. Designations have a risk of error and members should discuss designations with a physician before choosing one. If a member already has a physician, they should also consult with them for advice on selecting other physicians.** The fact that a physician does not have a Premium Care Physician designation does not mean that the physician does not provide quality health care services. All physicians in the UnitedHealthcare network have met certain minimum credentialing requirements (separate from the UnitedHealth Premium criteria). Please visit the medical care directory specific to the member's benefit plan for physician designations and detailed information about UnitedHealth Premium and the evaluation methodology.
