Explanation of Open Enrollment Process

Q & A

The Postdoctoral Benefit Program

Northwestern University has partnered with Gallagher Benefit Services (GBS) to administer the Postdoctoral Benefit Program (PBP).

Postdocs, regardless of their funding source, are eligible for benefits through this program.

Benefits may be offered in different ways, depending on the postdoc's funding source and the tax restrictions it entails.

All postdocs have access to the same insurance plans and do not need to change insurance if going on/off an NRSA grant.

The PBP is a package of benefits designed to closely match the benefits offered to the Northwestern University faculty & staff.

What is Open Enrollment?

Open Enrollment is an annual period when you can make changes to your coverage. Otherwise, you can only make changes when you experience a qualifying life event.

The Open Enrollment period for this year is **10/26/2026—11/13/2026**.

Changes will take effect on 1/1/2027.

Postdocs appointed after 1/1/2027 have 31 days from their start date to enroll in benefits.

Qualifying Life Events

Qualifying life events allow you to make changes to your insurance outside of your initial eligibility period and the annual open enrollment period.

Please note: *Documented proof of the qualifying event will be required and must be entered within 31 days of the event.*

Qualifying events include, but are not limited to:

- Marriage
- Divorce
- Birth of Child
- Adoption of a Child
- Entrance into the United States
- Loss of prior health insurance coverage

UnitedHealthcare®

Due to HIPPA (Health Insurance Portability and Accountability Act) protection laws, Northwestern and Gallagher **do not** have access to your medical claims information.

What is an HMO (Health Maintenance Organization) plan?

Under the HMO model, the member must choose a Primary Care Physician (PCP) contracted with the HMO plan at the time of enrollment (provider directory links are available on the GBS website).

If a PCP is not chosen at enrollment, one will be assigned to you within 5 – 10 miles of your home address.

Each family member can have a different PCP.

You are allowed to change your PCP once a month if you are not satisfied with your current choice.

If the member needs treatment from a Specialist or an inpatient or outpatient procedure, he/she must obtain a referral from their PCP prior to any type of consultation or treatment. **If the referral is not obtained, no benefits will be paid.**

Note: No referral is needed for an HMO member to go to an in-network Urgent Care Center.

There is no Out-of-Network benefit (except in the case of an emergency).

What is a PPO (Preferred Provider Organization) plan?

At the time of service, the member can seek care from a specialist, without having to obtain a referral from a PCP.

The PPO plan offers more flexibility and choice than the HMO plan because it offers both “in-network” and “out-of-network” options.

The in-network benefits (coinsurance, out-of-pocket maximum, etc.) will result in lower out-of-pocket costs than the out-of-network benefits.

The PPO plan and the provider agree to a "discounted fee for service" model. This means that the participating provider has agreed to provide their services at a discounted rate. Providers outside the network have not agreed to that discounted rate and typically charge a "Reasonable and Customary" fee, resulting in higher out-of-pocket costs.

UCR = The amount paid for a dental service in a geographic area based on what providers in the area usually charge for the same or similar dental service.

Accessing Care Out-of-Network
Using the PPO Dental Plan

When you seek services in-network, meaning, from providers listed in the PPO network, you pay less for care.

When you pay 50% for major services from an in-network PPO dentist, you are paying 50% of a contracted, discounted rate. This is not the case with out-of-network providers.

Out-of-Network Example: The out-of-network dentist charges $1,000 for a porcelain crown on a molar. This dentist can charge whatever they want for this service since they are not in the network.

Your percentage of the cost for out-of-network care is 50% after the $50 deductible.

For this service (a crown), the Usual, Customary and Reasonable (UCR) cost is $800, so you pay $450 ($400 + $50 deductible).

IN ADDITION, you owe the difference between the UCR amount and the dentist's charge ($1,000 - $800), which is an additional $200.

Total estimated cost out-of-network for the porcelain crown on a molar: $650
