

**DENTAL
INSURANCE**

What is a Dental HMO Plan?

When you enroll in the Dental HMO (DHMO) plan, you will be assigned to a Primary Care Dentist (PCD) at the time of enrollment, unless you pre-select a PCD at the time of enrollment.

The monthly premiums tend to be lower than the Point-of-Service Dental Plan (POS). However, the DHMO is not as flexible in terms of seeing an Out-of-Network provider compared to the POS plan. The DHMO only offers In-Network benefits.

In the DHMO plan, all dental services must be conducted by the PCD. The PCD must all provide a referral if you need to see a Specialist for a certain procedure.

Out of pocket cost tend to be lower in the DHMO plan.

If you enroll in the DHMO, Health Net will grant you access to their online Dental Cost Calculator at:
www.yourdentalplan.com/healthnet

This website will give you general information about the cost associated with different dental procedures, so you can plan ahead and be aware of your upcoming dental cost.

Please visit the Documents Library of the GPA website for instructions on how the use the Dental Cost Calculator.

What is a Dental POS Plan?

When you enroll in the Point-of-Service (POS) plan, you will not be assigned to a Primary Care Dentist at the time of enrollment.

The POS plan offers more flexibility than the HMO plan resulting in the out-of-pocket costs being a bit higher.

There are two In-Network options: An Exclusive Provider Organization (EPO) and a Preferred Provider Organization (PPO).

There is also an Out-of-Network option. You will pay less for services if an In-Network provider is used.

The EPO discounts up to 50% and the PPO discounts up to 30% for procedures performed by participating providers, greatly reducing your out-of-pocket costs.

Maximums for preventive, basic, and major procedures are combined for EPO, PPO and Non-Network: Calendar year EPO maximums are \$1,700 per person.

Calendar year PPO maximums are \$1,700 per person.

Calendar year non-network maximums are \$1,500 per person.
