

# HEALTH NET MOBILE

*When you're on the go – we're right at hand!*

On the go and need instant access to your health plan? Health Net Mobile is the answer. It's an easy way to connect to your [www.healthnet.com](http://www.healthnet.com) online account in no time at all.

Available **free** on Apple and Android devices and coming soon to other web-enabled smart phones, use this application to quickly give you access to plan details, copayments and deductibles, provider information, and more.

## Health Net Mobile features include:

**My Plan** – Access your health plan details, including subscriber and plan IDs, effective dates, copay and deductible information, and your schedule of benefits.

**My Provider** – For our members with an HMO or POS plan, get instant access to your primary care Physician (PCP) information, as well as the PCP for any member of your family on the plan. Plus, you can save your PCP details as a Favorite.

**My ID Card** – View your mobile ID card, a list of your plan dependents, and mobile ID cards for them too.

**ProviderSearch** – Search for doctors, hospitals, urgent care facilities and other providers in the Health Net network by location, address or ZIP code. You can even access maps and directions for each provider and save your provider search details as a Favorite.

**Contact** – Get instant access to Health Net by phone or instant chat, and find answers to common questions about Health Net Mobile.

**Other Functions** – Access a variety of wellness tools, tips and information, like our Health Improvement Programs.

**HEALTH NET MOBILE PUTS HEALTH NET RIGHT IN THE PALM OF YOUR HAND!**
