Mail order convenience

If your prescription is for a maintenance medication (a drug that you will be taking for an extended period of time), you have the option of filling it through our convenient and cost-saving mail order pharmacy program. Under this program, your copayments for up to a 90-day supply are: **\$20 Level I / \$50 Level II / \$70 Level III.**

Choose how you receive your 90-day prescription supply:

Option 1: Refill at a CVS Pharmacy

Fill your 90-day supply at any one of our CVS pharmacy retail locations

Option 2: Refill using CVS Caremark Mail Service Pharmacy

Have a 90-day supply of your long-term medicines shipped to your home or office

To find the right 90-day option for you, speak to a pharmacist at your local CVS/pharmacy, visit www.caremark.com or call Health Net Customer Service at 1-800-522-0088 for HMO Members or 1-800-6766976 for PPO members

¹ When filling prescriptions at non-participating pharmacies, you are required to pay the listed dollar copayment (if applicable), plus 50% of the prescription drug's Average Wholesale Price (AWP). You are also obligated to pay any amounts the pharmacy charges in excess of the AWP.

Generic substitutions

Generic drugs will be dispensed when a generic drug equivalent is commercially available. If you request a brand-name drug when a generic equivalent is commercially available, and “dispense as written” (DAW) or “do not substitute” (DNS) is not written or indicated by your prescribing doctor, you must pay the difference between the generic equivalent and the brand-name drug in addition to the listed copayments or coinsurance. However, if the prescription drug order states “dispense as written,” “do not substitute” or words of similar meaning in the physician’s handwriting, only the listed drug copayment will be applicable.

This is a brief description of your Health Net pharmacy benefits. Please refer to your Evidence of Coverage to determine the specific benefits, limitations, exclusions and all other terms and conditions of coverage.
