What is a PPO Plan?

- The PPO plan offers more flexibility and choice than the HMO plan due to the In-Network and Out-of-Network selection you make at the time you seek services
- The In-Network benefits (copays/coinsurance) will be covered at a higher level than the Out-of-Network benefits
- At the time of service, you have the ability to seek care from a Specialist, without having to obtain a referral from a Primary Care Physician (PCP)
- The contractual agreement between the PPO Plan and the In-Network Provider is on a “discounted fee for service” basis
- You will pay more out-of-pocket when you seek services Out-of-Network because those physicians are not providing the same contracted discounts as the In-Network physicians

Aetna 80/60 Base Plan

- The Open Choice PPO 80/60 plan offers you comprehensive benefit coverage with an In-Network and Out-of-Network benefit as well as prescription drug benefits
- This plan is the base plan, or ‘default plan’ that the University offers *at no cost to the postdoc*
- Before enrolling your eligible dependents, please check with your Department Administrator to assure that your dependents are eligible for the plan
