You live in a digital world. Smartphones have replaced wallets for many people, so it's logical to make insurance ID cards digital too. Once you've downloaded it, your insurance card is as close as your phone! Not only does this make it easy to display your card to a provider, our mobile app also makes it easy to email or fax it to a provider.

Once your insurance coverage is established, you'll receive an email letting you know your electronic ID card is ready to be downloaded from your My Account on uhcsr.com.
