Getting Started With TELADOC.

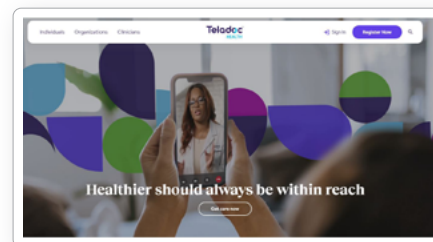

You are automatically enrolled in the program, and coverage is effective the day your trip starts. If you need to schedule an appointment, follow the instructions below.

If you attempt to access the Teladoc portal before your trip begins, you will not have access.

STEP 1: CREATE YOUR LOG IN

- Go to www.teladochealth.com or download the app.
- Click on "Register Now" on the upper right-hand corner of the screen.
- Enter the email address you'd like associated with your account, create a password, and accept the required terms.

STEP 2: VERIFY YOUR EMAIL

Teladoc may send a six-digit verification code to the email address provided. Enter that code to continue.

STEP 3: ENTER YOUR ELIGIBILITY INFORMATION

Enter the following:

- Enter your first and last name exactly as it appears in IMG's registration records. If your first name includes multiple names, enter only the first one. If your last name includes multiple names, enter the full last name. For example, if your name is Juan Carlos Martinez Lopez, enter your first name as "Juan" only, and your last name as "Martinez Lopez."
- Complete date of birth
- ZIP Code: 46208 (*ZIP code must be 46208 only when creating your account. This allows the IMG option to pop up so you can select your health plan.*)
- Do not check the box that says you received a code from your employer or insurance company.
- Please note, the information you provide must match the eligibility information on your insurance policy.*

STEP 4: CONFIRM YOUR COVERAGE

Teladoc checks that information against the eligibility on file. Once a match is found, you will see the group providing coverage and the Teladoc Health services available to you.

STEP 5: COMPLETE YOUR ACCOUNT SET UP

From there, provide the remaining information needed to finish setting up your account and begin accessing available services. The experience is the same whether a member registers through the Teladoc Health website or mobile app.

PROBLEM SIGNING UP?

If Teladoc cannot find your information or prompts you to enter your health insurance information, stop the registration process and contact IMG directly for assistance. This means Teladoc was unable to match the member to their eligibility. IMG can confirm the information on file and help determine what needs to be corrected before the member tries again.

Note for minors: When you first follow the registration steps, you will receive an error message prompting you to try again. Click "try again", resubmit your information, and you will be able to successfully enroll.
